

CAST Path/Area Light Telescopic Extensions (CWTRS Series)

CAST Path/Area Light Telescopic Extensions - CWTRS Series

Description:

These sturdy telescopic stem extensions utilize the Set-n-Stake® feature to attach to the stake. The **existing fixture stem slides into the extension** and is secured by a stainless steel thumb screw. Precisely machined brass inserts ensure extremely stable and secure extensions even when fully extended.

Can be used with: All Area/Path Lights, CAST Wall Wash (CCW1CB), and CAST Mini China Hat (CCH5CB, CCH5LED1) manufactured after May 2016.

To determine the final height range, please refer to below chart (Stem lengths: 16" for small area/path lights, 18" for larger area/path light).

Fixture Height:	CSAA (16" Stem)	CLAA (18" Stem)
6" (CWTRS6)	16" to 20"	18" to 22"
8" (CWTRS8)	16" to 22"	18" to 24"
10" (CWTRS10)	16" to 24"	18" to 26"
12" (CWTRS12)	16" to 26"	18" to 28"
16" (CWTRS16)	16" to 30"	18" to 32"
20" (CWTRS20)	20" to 34"	20" to 36"
24" (CWTRS24)	24" to 38"	24" to 40"
28" (CWTRS28)	28" to 42"	28" to 44"
32" (CWTRS32)	32" to 46"	32" to 48"
36" (CWTRS36)	36" to 50"	36" to 52"
40" (CWTRS40)	40" to 54"	40" to 56"
48" (CWTRS48)	48" to 62"	48" to 64"

To create a telescopic extension for the Wall Wash Lights (CWL6LED1, CIWL6), if the CWL9EXKIT does not meet your requirements, you will need to purchase a CWTRS series and a XCBPSTEMS series, plus the XCBPMWB8 adapter and a stake option (CMS1EM, CLMS1EM or CTSL1). When determining maximum height needed, please allow for 2" of the XCBPSTEMS that will be inserted into the CWTRS telescopic extension.

Note: As you increase the heights above 24" you may need to consider upgrading your staking option to secure fixture properly.

*** All Telescopic Risers are special order and Non-Refundable. Please allow 5 days to ship.**
