

SEWL1BT Bluetooth Color Control Capstone Light

IMPORTANT SAFETY INSTRUCTIONS:

- Please read carefully before installing. Save these instructions.
- Consult with a qualified electrical contractor and local electrical codes before installing any electrical product.
- Clean fixture with mild soap. Do not use acid or any other solvent-based cleaner.
- Do not submerge fixture in water.
- All fixtures must be installed 10 feet (3.05m) away from a pool, spa, or fountain.
- Use fixture with low-voltage outdoor lighting system only.

DO NOT OVERLOAD LOW VOLTAGE CABLE or TRANSFORMER.

ASSEMBLY INSTRUCTIONS: Your fixture is ready to be connected using your preferred wiring method right out of the box.

INSTALLATION/MOUNTING INSTRUCTIONS:

Note: We recommend, when installing any low-voltage fixture, that you have the following:

Voltage Meter, Wire Nuts, Amp Probe, Basic Hand Tools for Adjustment. Use Waterproof Wire Splice Connections.

INSTALLATION/MOUNTING & WIRING STEPS:

1. To prevent electrical shock, disconnect transformer from electrical supply before service.
2. Best spacing is five to seven feet on center. Closer spacing on lower height walls (i.e 24"), wider spacing on higher walls (i.e 48").
3. Place/set fixture in desired location. Unit can be mounted in CAST Set-In-Stone® module system, (CSIS & CSISC)
4. Run wire lead to the desired connection point with the main wire lead running to the transformer. Make sure you do not damage the #18-2 wire during installation.
5. Cut wire lead as needed, while leaving enough extra wire to move fixture.
6. Copper bracket can be bent slightly out or in to adjust light dispersion on wall surface.

7. LED module can be removed by unscrewing 8-32 slotted thumb screw.

MODULE RESET BUTTON: If Bluetooth password is forgotten, or other issues require resetting, poke the module reset button with a pointed object for three seconds. The light will dim/flash, indicating that the reset is successful.

WARNING: INSTRUCTIONS PERTAINING TO A RISK OF FIRE, OR INJURY TO PERSONS:

- Lighted lamp is HOT. Lamp is hot when illuminated; do not touch when lamp is on.
- Turn off/unplug electrical power before modifying the lighting system.
- Allow fixture to cool before touching or replacing optics.
- Lamps get HOT quickly! Contact only switch/plug when turning on.
- Do not touch hot lens, guard, or enclosure.
- Keep away from potential flammable materials, structures, and/or landscapes.
- Do not operate fixture if cover, fitting, and/or shield is damaged or missing.

Download CAST Lighting Btooth-Spot from the App Store (Apple) or Google Play (Android).

SEWL1BT Bluetooth Color Control Capstone Light

Color	Voltage Input	Consumed Wattage	Light Output	Dominant WL
Red	12V AC/DC	4.17W	93.42lm	627.0nm
Green	12V AC/DC	3.74W	188.16lm	527.9nm
Blue	12V AC/DC	3.92W	42.96lm	462.6nm
White Color 2700K	12V AC/DC	4.01W	262.78lm	

Operating Voltage 12V to 15V AC/DC
